

## MR Motorized Trolleys

### Pull-Rotor Motor Brake

Extremely durable and reliable, this advanced design furnishes precision load control, deceleration and long life.

### Heavy-Duty Motor

Designed for top performance with high-horsepower, 30-minute duty rating, cooling fins and standard thermal motor protection. Motor is totally enclosed, non-ventilated (TENV).

### Variable Frequency Drive

Dual speed controls via “under-the-cover” variable frequency drive standard.

### Built-In Drop Stops

Important feature provides additional security for the operator and the equipment.

### Sealed Protection

Appropriate for both indoor and outdoor applications, including harsh environments. (Consult owner’s manuals for details.) Gaskets throughout the trolley provide for an IP55 rating.

### Rubber Bumpers

Standard feature on all motorized trolleys. Provides protection from collisions. Complies with ASME standards.

### Side Guide Rollers

Four ball bearing supported rollers enhance smooth trolley motion and reduce wear of the wheels and beam.

### Cable Support Arm Assembly

Convenient “tow bar” is standard component that gives support and guides the power supply festooning.

### Pendant Plug-In Connections

Saves valuable time on setup and maintenance. “Quick disconnect” replaces typical competitive hard-wired designs.
